Work History

Novable - Brussels

Full Stack Developer Intern
September 2022 - December 2022

I completed a full-stack developer internship where I delivered all my tasks. I had the opportunity to work on both the frontend and backend, which allowed me to gain experience in developing web applications

BeCode - Brussels

Web Developer Trainee
January 2022 - July 2022

Full-time Bootcamp focused on both frontend and backend web development with hands-on projects. Training in soft-skills (problem-solving in a creative and innovative way). Group projects: collaborating with peers. Keeping up with the latest technology.

DCI International - Mogadishu

Digital Communication Officer Intern
June 2021 - September 2021

Managing digital communications. Budgeting and cost calculations. Drafting communication Materials.

Languages

English: fluent (speaking, understanding, and writing)
